

Security Key Options for Extra Verification

Background

- One of the options for Extra Verification is the use of a Security Key.

Issue/Problem

- Students who cannot or do not wish to use Text Message, Voice Call, Okta App, or Google Authenticator on a phone or tablet for Extra Verification, are able to purchase and use a USB Security Key to obtain the necessary code for Extra Verification.
- For WSU Staff and Faculty who cannot or do not wish to use Text Message, Voice Call, Okta App, or Google Authenticator on a phone or tablet for Extra Verification, they may buy their own Security Key, or contact their department regarding purchasing a Security Key for the user's Extra Verification needs. Whether the department will purchase the item is solely up to each individual department.

Solution

- For Usage, see "How to Set Up Extra Verification" for direct instructions on setting up Security Keys for [How to Set Up Extra Verification](#)
- ITS has purchased and tested the following options, but does not recommend any specific product, nor can they support them directly. When purchasing a key, look for "FIDO Certified" or the logo:

- Make: Key-ID
- Web: <https://www.key-id.com>
- Model: FIDO U2F USB Security Key

<https://www.amazon.com/Key-ID-FIDO-U2F-security-key/dp/B01N6XNC01>

- Make: Feitian
- Web: <https://www.ftsafe.com>
- Model: ePass FIDO-NFC

https://www.amazon.com/gp/product/B01M1R5LRD/ref=ox_sc_act_title_2?smid=A30V4CZBKPUCCSD&psc=1

- Make: HyperSecu
- Web: <https://hypersecu.com>
- Model: HyperFIDO Titanium

https://www.amazon.com/gp/product/B074N9LQZL/ref=ox_sc_act_title_3?smid=A1K2C2LNDSTL3L&psc=1

- Make: Yubico
- Web: <https://www.yubico.com>
