

# WordPress - How to Add Contact and Other Information to Your Labs Site

## Wordpress: How to Add contact and other Information to your Labs site

A quick tutorial on how to add information such as contact info to your WSU labs website

1. Go to your **Dashboard**
2. Hover your mouse over the option for **Appearance**
3. Click on **Customize**
4. Choose the option for **Contact Information**
5. Fill in information
6. Once you are done and want to save. Click the **Save & Publish** option at the top
