Security Key Options for Extra Verification

Background

- One of the options for Extra Verification is the use of a Security Key.

Issue/Problem

- Students who cannot or do not wish to use Text Message, Voice Call, Okta App, or Google Authenticator on a phone or tablet for Extra Verification, are able to purchase and use a USB Security Key to obtain the necessary code for Extra Verification.
- For WSU Staff and Faculty who cannot or do not wish to use Text Message, Voice Call, Okta App, or Google Authenticator on a phone or tablet for Extra Verification, they may buy their own Security Key, or contact their department regarding purchasing a Security Key for the user's Extra Verification needs. Whether the department will purchase the item is solely up to each individual department.

Solution

- For Usage, see “How to Set Up Extra Verification” for direct instructions on setting up Security Keys for How to Set Up Extra Verification
- ITS has purchased and tested the following options, but does not recommend any specific product, nor can they support them directly. When purchasing a key, look for “FIDO Certified” or the logo:

  - **Make:** Key-ID  
    - **Web:** [https://www.key-id.com](https://www.key-id.com)  
    - **Model:** FIDO U2F USB Security Key  
    - [https://www.amazon.com/Key-ID-FIDO-U2F-security-key/dp/B01N6XNC01](https://www.amazon.com/Key-ID-FIDO-U2F-security-key/dp/B01N6XNC01)

  - **Make:** Feitian  
    - **Web:** [https://www.ftsafe.com](https://www.ftsafe.com)
