Zoom - How do I Report a Participant in a Zoom Meeting?
Issue:

I want to report a malicious participant in your Zoom meeting

Solution:
Note: Only hosts, and co-hosts, have the ability to report participants.
Hosts/Co-hosts are not enabled to report other hosts/co-hosts

Below are the steps to report a participant

1. Open the participant list in your Zoom meeting

2. Identify the participant you would like to report, and hover your pointer over their camera/microphone

3. Click 'More', and then select 'Report...'

4. Please also send a follow-up email, to zoom.support@wsu.edu detailing what happened and who you reported.
