

Reset.wsu.edu is now Account.wsu.edu

WSU has implemented a new password management system, and reset.wsu.edu has moved.

In order to reset your password, please navigate to **account.wsu.edu** and select "Unlock account". This will have you enter your WSU Network ID (Your email address without the "@wsu.edu") and then select some form of MultiFactor Verification. Once verified, OKTA will ask you to set up your new password.
