

# WSUnix Service Decommissioning

## Problem

WSUNIX service is decommissioning and you would like to know your options for moving forward.

**Note:** As of June 29, 2018, you will no longer be able to log in to access your content on WSUNIX.

## Solution

If you would like to speak with someone in person about your options, please attend our [open lab](#).

Options for your STATIC web content

1. Do Nothing
  - a. Your static HTML site will stay exactly the same and will not go away
  - b. You WILL NOT be able to edit your files
2. Move to WSU WordPress
  - a. Request a new site at our [web portal](#)
    - i. New Lab / Research Website - For those showcasing research and/or lab research
    - ii. New Website - for more a more general purpose site
  - b. Content migration
    - i. Move the content into WordPress yourself
    - ii. Request that we move the content for you (\$85/hour)
  - c. When your new site is ready, we can help set up a redirect from WSUNIX to your new site
3. Move your static HTML site to another web server
  - a. Request a copy of your static content and move it to a web hosting solution of your choice
  - b. When your content is ready at the new location, we can help set up a redirect from WSUNIX

Options for your DYNAMIC web content

1. Do Nothing
  - a. All dynamic content (scripts, CGI, etc) will be removed
2. Move your dynamic content
  - a. Move to a new WSU ITS server with a [Service Level Agreement \(SLA\)](#)
  - b. Find a non-WSU hosting solution and move the dynamic content there
  - c. When your content is ready at the new location, we can help set up a redirect from WSUNIX
